

DUCHATEAU

SIGNATURE

Société Collection

NOUV

Nouv expresses warmth and clarity in equal measure. Its tone is both classic and modern, equally suited to quiet intimacy and architectural scale.

The Société Collection offers warm tones in the clean look of contemporary, select-grade wide planks of European oak. Inspired by the famous salons of Paris, where the fine interior design and the appointments within them intrigued the interested and interesting; where conversations took the day and ideas were exchanged with grace.
